BREATHER TO THE BEATEN

Submitted to National Assessment and Accreditation Council
2016 - 2021

BEST PRACTICES – II

1] TITLE : BREATHER TO THE BEATEN

2] OBJECTIVE:

It is said you cannot beat a person who doesn't give up. This is exactly what we at St. Thomas College are trying to do. To provide financial assistance to college students who were orphaned during COVID19.To help the students to continue with their studies they have enrolled in and all in their future academic pursuits in this institution

3] THE CONTEXT

The catastrophe caused by the cataclysmic COVID-19 has devastated many lives, especially children at a tender age who have lost their parents. World Health Organization first declared Covid – 19 as public health emergency and then as pandemic. More than 200 countries have been affected by this. Amongst these were parents of several children of this institution and as a result many children were orphaned during the pandemic. The college has a duty and obligation to facilitate education to affected children. Being a private self-financed institution there is a fee specified for all programs. Contingency expenses like stationery and books are also considerable that students have to bear. The policy was adopted by the college to provide financial assistance and waive off the tuition fee totally and with the library offering books for the whole year under the Book Bank scheme, empowered the students to continue their education even after losing the earning member of the family due to covid.

This measure makes way for long term assistance to enable the child to have the necessary financial support with regards to their future. Our college was a witness to many students who were orphaned during the pandemic. The agony of seeing the suffering of the students added with the uncertainty of their future gave us the strength to start this fee waiver initiative. In order to console the students to certain extent and help them to overcome the repercussions of their great loss, the college administration decided to exempt the fees of such students and give them possible financial assistance to complete the course they are enrolled in and all the programs they wish to pursue from this college.

4] THE PRACTICE

Fees Waiver for students orphaned during Covid-19. It was notified to all departments of the college to find out the names of students who have either lost both parents or has lost the earning member of their family. All departments adhered to the notification and submitted the list to Principal office. It was verified by the Principals office and genuine students identified were given fees waiver during the time of admission for the session 2021-22.

Many other activities apart from the best practice mentioned above has been undertaken by the college. To mention few activities like Mask making and distribution of mask and Sanitizer, sensitizing the public about covid protocol etc

5] EVIDENCE OF SUCCESS

This will ensure students are not deprived of any opportunity to study and will pave the way for a secure future. College drop outs will be decreased.

Those students who thought of earning for a living got an opportunity to complete their graduation or post-graduation.

6] PROBLEMS ENCOUNTERED & RESOURCES REQUIRED

Many students had to be convinced to continue with their studies after losing the earning member of the family as they had decided to take a job to keep the household running. College then had to find other assistance for taking care of many issues of the family of the affected students. Counselling of family members were done to promote mental health as well allow the student to continue his studies. This was not taken well by the family members of many students.

फीस न दे पाने वाले छात्रों को सेंट थामस महाविद्यालय देगा छूट

- सेंट थॉमस कालेज ने कोरोनाकाल में छात्रों को दिया संरक्षण

भिलाईनगर. सेंट थॉमस महाविद्यालय ने भी छात्रों की सहायता के लिए बहुत से कदम उठाये है और आसपास के विद्यालयों में शिक्षण प्रशिक्षण प्रक्रिया को बढ़ावा देने के लिए प्रयासरत है.

Institutions under Diocesan – Mission Education Board, Bhilai

Dear Achen/Sir/Madam,

St. Thomas Malankara Orthodox Syrian Church Mission, Bhilai which is popularly known as Bhilai Mission is entering into its 50th year of service. St. Thomas Mission, Bhilai was established on 3rd July 1972, by His Holiness Baselios Mar Thoma I, the then Metropolitan of outside Kerala. Subsequently Bhilai Mission grew under the able guidance of Fr. K.K. Punnoose(H.G. Dr. Stephanos Mar Theodosius of Blessed Memory) as its first Director. Mar Theodosius' self-less and dynamic has enabled St. Thomas Mission to be an inspiring agency in the central and eastern India. The contributions of St. Thomas Mission in providing affordable quality education through its informal education centers like balwadis, as well as schools and colleges are commendable.

As part of the yearlong Mission Jubilee celebrations educational, ecological, developmental and charitable projects are envisaged. Similarly all our institutions under St. Thomas Mission and Diocese are expected to initiate the following projects:

a. The catastrophe of the pandemic Covid-19 has affected the educational sector. Apart from the disruption in the teaching-learning process, most of the institutions are also affected financially. Similarly many families have lost their income and are struggling. From the list of fee defaulters it has been noticed that there are many students who were not able to pay fee for the last academic year. Some of them have stopped or on the verge of discontinuing the studies. As a Christian institution it is our duty to ensure that they continue their studies and get a bright future. Out of these fee defaulters there might be a few who, though well off, have decided not to pay the fee or might be instigated by some groups against payment of fee. They might be persuaded to pay the fee. Rest of the defaulters, who are really in financial trouble, can be given a reprieve. The Vice President and the Local working committee of the School, in consultation with the Principal shall make proper inquiry into the individual cases and make

a final list of the defaulters who are really in need. An average of Rupees Ten Thousand (this can vary depending on the fee structure and class) may be granted as concession to these students. The School is free to decide on the number of students who shall be included in this list and the amount of concession. We hope that through this step, we can ensure that no student of ours shall end up as a dropout. This project is aimed mainly for 2020-21 academic session.

b. Students who have lost both their parents/ or the earning member due to Covid related problems, shall be provided free education in our institutions till the completion of their studies. If they lost one of the parents, 50% concession in tuition fee shall be provided till the completion of their studies,
c. Each institution shall take up a project for the benefit of the local community. This would also help to increase our rapport with the neighborhood and create goodwill. Some suggested programmes are Computer skill development (eg. animations, Tally etc.), Spoken English, Soft skill development for local students and youth, after school care etc. The services of our staff can be utilized for the same (for which they should be given an honorarium) or part time resource persons may be used for these programmes conducted outside the normal functioning time of the School/ college.
d. It is also recommended that each institution, with adequate land, shall set up a Model Organic farm to motivate students, staff, and local community on the need and benefit of such eco- friendly activities.
e. The institution is also free to suggest any other feasible projects as per the local requirements.

The above shall be discussed in the local LWC and the duly filled in attached form along with the suggestions on the feasible projects shall be sent to deocalcutta@gmail.com on or before 15th August, 2021. The Principals are also advised to discuss the aforesaid projects and incorporate the suggestions received.

May God Bless You!

NCC Cadets join fight against Covid-19

Bhillai, May 06:

Cadets of 20th NCC Battalion, Durg, Chhattisgarh are joining fight against Covid-19. The NCC cadets will now act as Corona Warriors and will play different roles in the fight against this global pandemic.

On the instructions of Colonel Rajesh Seth (Commanding Officer, 20th NCC Battalion), NCC cadets from various colleges of the district received special training at the auditorium of District Collectorate on Monday. They were detailed about the measures for prevention of infection and rescue the local citizens. Additional Collector BR Pandekar, Additional Superintendent of Police (Rural) Lakhan Patle, Chief Health and Medical Officer Dr Gandhi Singh Thakur and Dr RK Khandelwal conducted the training session. During training, the cadets were advised to carry out their tasks while maintaining social distance. Cadets were also briefed about the third phase of pandemic and action plan to tackle the situation. They were informed that the third phase will be very challenging. The state government is making efforts to ensure return of stranded labours and students from different states of the nation. A challenging situation would arise due to its ban of migrant labourers and students and screening the fight against Covid-19 will entail new dimensions. The trainers stated that collective efforts are required to overcome this crisis and win the fight against this pandemic.

Colonel Seth informed that the trained NCC cadets will deliver their social responsibility and serve at important places in the district. Subedar Major Durga Bahadur Thapa, NCC Officer Major DP Gupta, Lieutenant Dr Surekha Jawade, Lieutenant KK Mandal, Lieutenant Harish Kashyap, Lieutenant Laxman Prasad, Lieutenant Ujjwala Bhoite, Battalion PI Staff Nayak Subedar Lakshman Nayak Settaruh, Hawaldar Jeet Bahadur Thapa, Hawaldar Mahan Singh and cadets were present.
